## Professional Summary

---

Computer Engineering student at Universitas Diponegoro with a strong focus on Machine Learning and Artificial Intelligence. Experienced in developing AI-based projects and interested in building practical AI solutions through software development and machine learning.

## Education

---

### 2022 - 2025 | SMA PGRI 1 Pati

Engaged in academic competitions, served as Class President, and managed extracurricular activities

### 2025 - Present | Universitas Diponegoro | Computer Engineering | GPA: 3.84/4.00

Focusing on Artificial Intelligence, Machine Learning, Data structures, Algorithms, and Software Engineering Principles.

## Projects

---

### JobFit AI

- Built a FastAPI resume analysis pipeline using OCR, NER, and embedding models to extract and normalize skills from CVs.
- Implemented FAISS semantic search to match extracted candidate skills against a job-skill dataset

### Instagram AI Agent - OpenClaw Integration

- Built a FastAPI-based Instagram AI agent backend integrating Instagram Webhooks with OpenClaw for automated DM processing and responses.
- Containerized and deployed the application using Docker.

## Experience

---

### 2023 - 2024 | OSIS SMA PGRI 1 Pati | General Secretary

Managed administrative operations including drafting formal proposals and official correspondence

### Feb 2026 - Jul 2026 | Dicoding | Cohort Coding Camp Dicoding x DBS Foundation

Studied machine learning and deep learning through structured coursework and hands-on projects.

### Mar 2026 - Aug 2026 | Google | Google Student Ambassador 2026

Promoted Google programs, products, and learning resources among students.

### Sep 2026 | Department of Computer Engineering | Programming Laboratory Assistant

Assisted students in understanding and implementing looping concepts through practical sessions.

## Technical & Core Skills

---

- **Languages & Frameworks** : Python, FastAPI, Laravel, Scikit-learn, TensorFlow, Keras, Pandas
- **AI & MLOps** : RAG, Docker, Transformers, LLM, Machine Learning, Deep Learning, REST API, Vector Search
